Academic Plan of Action

The following is an action plan to assist students in credit completion for the purposes of maintaining good academic standing and federal student aid eligibility. As part of the federal requirements for satisfactory academic progress (SAP) students must receive academic advising to assist the student in developing an academic plan. Students should complete their Plan of Action with a faculty or an academic advisor and submit with appropriate signatures for financial aid appeals.

**** A Degree Audit Plan will also need to be completed by the Faculty/Academic Advisor, in addition to this plan for MAXIMUM TIMEFRAME APPEALS****

Students receiving federal financial aid through the Federal Pell Grant, Federal Supplemental Opportunity Grant (FSEOG), or Federal Work Study Program (FWSP) are required by federal regulations to make satisfactory progress toward a degree, diploma, or certificate in order to receive and retain eligibility for these funds. There are three components to satisfactory academic progress as explained below:

1. Students enrolled in a certificate, diploma, AS, AAS, AAT or AOT program requiring more than 26 credit hours must achieve a *cumulative* Grade Point Average (GPA) of:
 - 1.50 and 58% completion rate after attempting 0 -21 credit hours
 - 1.75 and 62% completion rate after attempting 22-32 credit hours
 - 2.00 and 67% completion rate after attempting 33 or more credit hours

Students enrolled in Short Certificate programs equal to 26 credit hours must achieve a *cumulative* Grade Point Average (GPA) of:

- 1.50 and 58% completion rate after attempting 0 -12 credit hours
 - 2.00 and 67% completion rate after attempting 13 or more credit hours
2. Students must successfully complete at least 62% of the classes attempted during their first academic year (32 credit hours or more, not including developmental courses); and 67% of the classes attempted after 33 or more credit hours.
 3. Students must successfully complete their Program of Study within the required time frame.

A student in violation of either of the first two components will be placed on a **Financial Aid Warning for one term**. During this warning term, the student will continue to receive federal aid but must improve his/her academic record so that the grade point average and hours completed are in compliance with policy. Failure to do so will result in **suspension** of financial aid. A student who completely withdraws from all classes during a warning period, will be placed on suspension. To be reinstated on financial aid, the student must attend full-time for at least one term at his/her own expense and bring his/her academic record into compliance with the policy. When policy requirements are met, the student must request in writing that his/her academic record be reviewed for reinstatement. If unusual circumstances contributed to the student's inability to make satisfactory academic progress, the student may appeal the decision to suspend federal aid by completing this form and submitting it to Student Financial Services by the dates indicated.

1. Financial Aid Warning

If a student fails to achieve the required cumulative GPA or does not successfully complete the required percentage of hours, he/she will be placed on financial aid warning. The student remains eligible to receive financial aid while in warning status. Financial Aid Warnings will be lifted in a subsequent term if the student attains the required cumulative GPA and successfully completes the required percentage of hours.

2. Financial Aid Probation

Probations may not be given automatically. If a student fails to achieve satisfactory academic progress by the end of a financial aid warning, or if a student fails to complete a program within the maximum time frame allowed he/she may submit the appeal form. If the appeal is successful, then the student is placed on probation, and thereby regain eligibility for financial aid for one payment period; or if he/she receives approval from the Appeals Committee to complete the program of study. If he/she makes satisfactory academic progress at the end of the probation payment period, their eligibility is reinstated, and they are eligible for aid for the next term.

3. Appeal Process

The student may file an appeal by submitting a Financial Aid Appeal's Form along with a Plan of Action to the Financial Aid Appeals Committee. The Plan of Action must provide an academic resolution in addition to discussing the circumstances of their current financial aid situation. The Financial Aid Appeals Committee meets a minimum of **three** times a semester to consider appeals. Students may appeal financial aid suspension and termination from financial aid when they believe there are **extenuating circumstances** (e.g. - illness, incarceration, and transportation, death in the immediate family, income loss or documented undue hardship.) The circumstances given are examples, however, they are not limited to what is listed, and each must be documented.

4. Financial Aid Suspension

If the student fails to follow the Plan of Action he/she will be suspended from federal financial aid. If placed on academic suspension, a student is NOT eligible to receive financial aid for the duration of suspension, even if he/she is readmitted to the College upon academic appeal. The student may gain eligibility for financial aid when satisfactory academic progress is obtained.

5. Monitoring Progress

Academic progress for students at Lawson State Community College will be monitored at the end of each semester.

6. Repeated Courses

Students may receive federal aid for repeated courses. However, a student can only repeat a successfully passed course using federal aid once. All terms of enrollment are considered when reviewing Satisfactory Academic Progress regardless of whether federal aid was received. Failing grades, withdrawals, incompletes, and/or repeated classes may result in financial aid suspension because these classes are considered as attempted hours not successfully completed (those hours are included in the maximum time frame.)

7. Developmental Courses

A student may receive aid for up to 30 attempted developmental hours. If this number is exceeded, financial aid cannot cover any further attempted developmental courses. A student receiving federal financial aid may not enroll in the same developmental course more than three times in order to continue to receive aid.

8. Audit Courses

Audited courses are not considered credits attempted or earned, and students cannot received financial aid for these courses.

9. Clock Hours

Clock hour programs are reviewed at the end of each payment period.

10. Bankruptcy

Bankrupted Classes will be factored into the completion rate, maximum time frame, and the GPA calculation.
